The Yearbook Staff extends a hearty welcome to the new teachers and students who started the new school year with us. We hope that the new acquaintances you will make may in some way fill the void caused by friends you have had to leave. We do wish each of you a successful school year.

DEDICATION

This year as we review the list of business establishments whose financial support has made the yearbook and other school functions possible, we note that La Farge and Flora Dastrup have been among the most faithful. We also note that due to poor health, it may be necessary for them to retire; so while they are still actively managing their business, we wish to express our appreciation to these two long-time citizens for their faithful support.

La Farge Dastrup was born in Salina, Utah, September 3, 1905, and moved to Altonah, Utah, when he was six years old. Two years later a bone infection in his leg required surgery and kept him on crutches for five years. When he was 18 years of age a gunshot wound in the same leg caused permanent disability. He graduated from Ogden High School in 1923 and studied law by correspondence with American Extension University, from which he received an LLB degree.

Flora Pederson was born in Ephraim, Utah, September 23, 1909, and graduated from Ephraim High School and Snow College. She then came to Altonah to teach school in 1929. She also taught at Boneta and Duchesne.

La Farge and Flora were married April 15, 1930, and later in the Manti Temple. They have two children, Lorraine and Neal. They now have four grandchildren.

The Dastrups lived on a farm until 1935, when they moved to Altamont, built a home and opened a service station and store. Their first business was completely destroyed by fire in 1938. It was rebuilt and again burned in 1946. They then built the store and apartment house they now occupy.

The Dastrups have always had a great love for Altamont and a desire to see the progress and growth of it. When they moved to Altamont there was no electric power. They along with others and through the Rural Electrification Association finally built a plant in 1938.

La Farge served as counselor in the MIA, President of the Wild Life Federation, and on committees to promote highways. Altamont was incorporated in 1952, and La Farge served as Mayor for twelve years and eight months. During his administration, the water system was installed. As we go to press, we wish them many years of happiness.

If we get involved in seven learning situations and learn seven new concepts each day, at the end of a year's time, we will have learned two thousand five hundred fifty-five new ideas. Education is a business so highly recommended, that it has been put into the law that we must involve ourselves.

Julie,
 I hope you haven't taken me wrong, I
 think that you're a real sweet girl - I
 hope you always stays that way - I know
 that sometimes it seems like I'm on your

Standing: George Lindsay, Travis Mitchell, Cindy Barton, Garth Potts, Dennis Witbeck, president; Jackie McDonald, Glen Jessen. **Sitting:** Merralee Hansen, historian; Bonnie Potts, vice-president; Judy Thacker, Mayla Mitchell, secretary; Vickie Brotherson, Mr. Roberts, advisor.

We the members of this year's Student Council are devoting our time to try and improve our school. Our school is the important thing we have, so we have to make the best of it.

We have to have good leadership in schools, and our job is helping the Principal in every way we can to make ours the better school.

The laws and standards that are set up by Utah State School laws and Duchesne County Board of Education must be followed. Our job is also trying to plan activities for the students. We must do the best we can in trying to please all the Studentbody. We must encourage school spirit, and keep it flying through the halls all year. We have good teachers and students to work with which makes our school best.

Nothing operates successfully without government. It is a must.

Three of our Seniors this year are Student Body officers. Dennis Witbeck is our Student Body President, Mayla Mitchell is our Secretary, and Merralee Hansen is our Historian.

All of these activities have involved a lot of hard work, but we all took part in them and did much to contribute to the "red and blue."

We feel the years behind us have been successful ones and have given us the courage to face the years ahead.

We as Seniors are looking forward to the future with high hopes, but look back at Altamont High School with fond memories.

SOPHOMORES... STRIVE ONWARD.

Because of the things which they learned and the activities which they participated in, the Sophomores of 1968-69 will remember this year as a great one.

The boys helped represent A.H.S. by playing baseball, volleyball, and basketball. Many of them were active in FFA. The girls helped by participating on the softball and volleyball teams. They were active in both Pep Club and FHA. Some members participated in the Dramatic and Forensic Meets. They represented their class very well.

Under the direction of their officers Glen, Nelson, Roger, and Paula, the class worked hard throughout the year to keep Longhorn Spirit burning.

After their achievements this year, the Sophomores look forward to a very exciting and bright future. They are ready to work toward their careers, which are but a few steps ahead of them. With their ability, enthusiasm, and high goals they will meet their junior year with many rich promises.

YEARBOOK STAFF

Mr. Karl Wood
Advisor

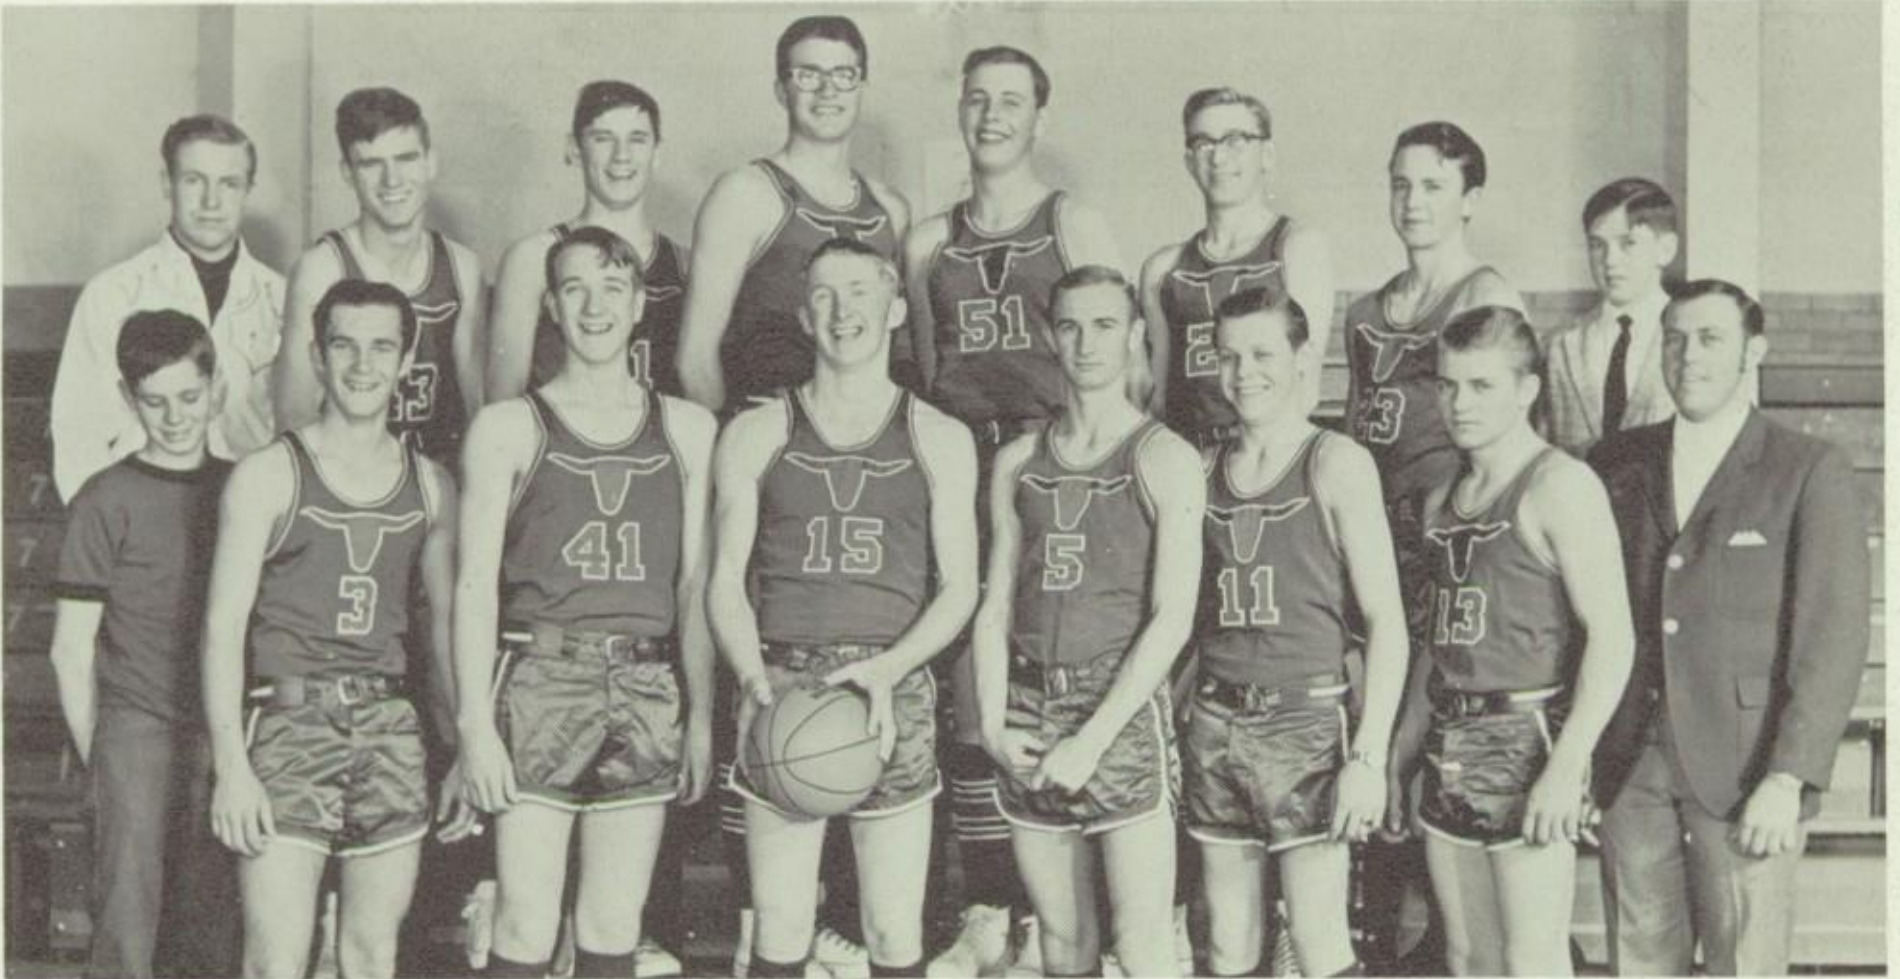

At this point in the production of our yearbook I want to express my appreciation to the staff for their cooperation and even dispositions at trying times. I feel that this is going to be the best yearbook that has been published in the last six years. It is hard to single out any one individual for special mention with the possible exception of George Lindsay who led in the advertising campaign. For an inexperienced staff to publish a book of this caliber is more than one usually expects. Again thanks for a very pleasant year.

BETTY CROCKER HOMEMAKER OF TOMORROW

The Betty Crocker Search for the American Homemaker of Tomorrow has as its major objective, to help girls look at homemaking as the greatest career in the world. Each Senior girl is given a basic knowledge and aptitude test. The highest scoring girl from each participating high school receives a pin. Her paper is then entered into competition with other high scoring girls within her state. The state winner receives a scholarship plus an expense paid trip.

The state winners papers are judged and a national or American Homemaker of Tomorrow is selected. This girl receives a large scholarship.

This year Merralee received this award.

CRISCO AWARD

The Crisco Trophy Award for the Outstanding Student in Home Economics is sponsored by the Proctor and Gamble Company. This award is available each year to be presented to a senior girl. This year Sandra was selected because of her active participation and accomplishments in Homemaking classes.
